GOVERNMENT OF WESTERN AUSTRALIA

Departments of
Water and Environmental Regulation
Mines, Petroleum and Exploration

Application for new permit or referral to clear native vegetation

This is the form to submit a referral of proposed clearing or apply for a clearing permit under Part V of the *Environmental Protection Act 1986* (EP Act).

Before you submit this form, please check you have completed all the fields for the form type and fully prepared any required supporting documents (maps etc.). The Department of Water and Environmental Regulation (DWER) or Department of Mines, Petroleum and Exploration (DMPE) will return/decline any forms that are not correctly completed.

To find out more about the stages of assessment for clearing permit forms, see the *Procedure: Native vegetation clearing permits*.

Part 1 – Form type

Select your form type. **Note**: Where appropriate in this form, and unless stated otherwise, the terms 'application' and 'applicant' also mean 'referral' and 'referrer' respectively.	☐ Referral of proposed clearing (section 51DA of the EP Act) ☐ Application for an area permit (section 51E of the EP Act) ☒ Application for a purpose permit (section 51E of the EP Act)

Which department are you submitting this form to? If the clearing is for mineral and petroleum activities authorised under the *Mining Act 1978*, the various petroleum Acts, and/or a State Agreement with areas covered by either mineral or petroleum tenure granted under one of the abovementioned Acts, select 'Department of Mines, Petroleum and Exploration'. For all other clearing activities, select 'Department of Water and Environmental Regulation'.	☒ Department of Mines, Petroleum and Exploration ☐ Department of Water and Environmental Regulation

Part 2 – Applicant details

2.1 Applicant name

For area permits:

If granted, the name(s) of (all) landowner(s) will be listed as 'permit holders' on the permit.

For purpose permits:

If granted, the name(s) of (all) applicant(s) will go on the permit.

☐ Applying as an individual – complete the following:

Title	☐ Mr ☐ Mrs ☐ Ms ☐ Other:	
Name(s)		

☒ Applying as a body corporate or other entity formed at law – complete the following:

Name	Bullabulling Operations Pty Ltd
Australian Company Number (ACN)	106 444 606

☐ Applying as a government entity (e.g. government department, local government authority, or other statutory body)

Name	

2.2 Applicant contact details

Provide the contact details for the above (primary contact).

[redacted]

2.3 Applicant contact postal details

Provide the postal address for the above individual, body corporate or local government authority (primary contact).

[redacted]

[redacted]

2.4 Applicant contact – registered business address

If applying as a company, incorporated body, local government authority or public authority, please also supply the registered business office address.

[redacted]

2.5 Electronic correspondence consent

DWER/DMPE prefer to send all correspondence via email. We request that you consent to receiving all correspondence relating to instruments and notices under Part V of the EP Act via email. Please indicate your consent in this section of the form.

I consent that all written correspondence between myself (the applicant) and DWER/DMPE (as applicable) about the subject of this form will be exclusively via email, using the email address provided above.	☒ Yes ☐ No

2.6 Contact details for enquiries

If different from the applicant's contact details, enter the contact details of a person with whom DWER/DMPE should liaise with (e.g. a consultant).

Same as applicant's contact details	☒ Yes ☐ No

If 'No' – complete the following:

[redacted]

[redacted]

Part 3 – Land details

- You must accurately describe the location of the land where your clearing is proposed.
- Provide copies of associated documents registered against the Certificate of Title (limitations, interests, encumbrances or notifications) where the clearing may impact them (i.e. caveats within freehold Lots).
- If you have a large number of properties, please provide the relevant details for each property in a separately attached supporting document.

I have a large number of properties and have given the relevant details in an attached supporting document.	☐ Yes – skip to Part 4 ☐ No

If 'No' – complete the following:

Land description Provide the following details, as applicable, for all properties: – volume and folio number – lot or location number(s) – crown lease or reserve number – pastoral lease number – mining tenement number	M15/503, M15/483, M15/529, M15/1414, M15/1878, M15/1879, M15/1880, M15/1881, M15/1939, L15/158, L15/330, L15/357, L15/358, L15/359.		
Street address – Line 1			
Street address – Line 2			
Suburb			
State		Postcode	
Local government area(s)	Shire of Coolgardie		
Land zoning	Unallocated Crown Land / Pastoral Lease (Bullabulling Station and Calooli Station)		

Part 4 – Relationship to landowner

Tell us which of the following options best describes you as the person completing and submitting this form. If you are filling out this form on behalf of the applicant, answer this question as though you are the applicant.

Proof of ownership may include:

- a certificate of title
- a pastoral or mining lease
- public authority that has care, control or management of the land
- other form of lease, land tenure or specific arrangement.

Relationship to landowner **(select one of the following options)**	**Complete the following**
☐ I am the landowner	☐ Attach proof of ownership
☐ I am lodging a form on behalf of the landowner (e.g. a consultant)	☐ Attach proof of ownership
☐ I am acting on the landowner's behalf and will be jointly responsible for the clearing permit (i.e. joint form)	☐ Attach proof of ownership ☐ Attach a letter, in which the landowner authorises you to act on their behalf and acknowledge they will be jointly responsible for the clearing permit
☐ I am likely to become the landowner	☐ Attach evidence of the pending transfer of ownership, including details of current proprietor on certificate of title, and/or contract of sale ('offer and acceptance')
☐ I will undertake the clearing activities with the landowner's authority and will be the permit holder	☐ Attach proof of ownership ☐ Attach a letter, in which the landowner authorises you to access and clear native vegetation within the property(ies) as detailed in section 3.1 (if the applicant is not the landowner)
☐ I am a person with multiple land parcels within which clearing is proposed	☐ Attach proof of ownership and/or ☐ Attach letters, in which the landowner authorises you to access and clear native vegetation within the properties as detailed in section 3.1 (if the applicant is not the landowner)
☒ I will undertake the clearing activities through the exercise of power conferred by different legislation (e.g. the *Energy Operators (Powers) Act 1979*)	☒ Provide relevant legislative details: *Mining Act 1978*

Part 5 – Proposed clearing

5.1 Maps and/or spatial data

Select which map type(s) you will attach with your form. Note: DWER/DMPE will decline/return forms (as applicable) if you do not provide sufficient information for this question.	☒ An ESRI shapefile with the following properties (preferred) • Geometry type: polygon shape • Coordinate system: Geocentric Datum of Australia (GDA) 2020 (geographic latitude/longitude) • Datum: GDA 2020 ☒ An aerial photograph or map with a north arrow, clearly marking the proposed clearing area Note: • An ESRI shapefile must use one of the following filename extensions: .shp, .shx, .dbf, and/or .prj • You must provide an ESRI shapefile if the form requires an assessment under an *Environment Protection and Biodiversity Conservation Act 1999* (Cth) (EPBC Act) accredited process. See Part 8 of this form for more information.

5.2 Size

- If you propose to clear a patch(es) of vegetation, enter a hectare value for the total size of the area (mark number of trees as zero). For example, "clearing of 5 hectares".
- If you propose to clear only individual trees (i.e. the shrubs, grasses, groundcover plants will remain intact), provide the number of trees. For example, "clearing of 10 trees". If any shrubs, grasses, and/or groundcover plants **may** be damaged in the clearing process, enter the total area only.
- If you propose to clear an area of native vegetation within a larger footprint, enter the hectare value for the total size of the area to be cleared (mark number of trees as zero) and the size of the footprint. For example, 5 hectares of clearing within a 10-hectare footprint. This option is only available for purpose permit applications.
- Enter values for **both** number of trees and the size of the area **only if** you are clearing individual trees in one area **and** a patch of vegetation in a different area.
- Please note the following area conversions/calculations:

1 hectare = 10,000 m^2	Area of circle = 3.14 x $radius^2$
1 acre = 0.4 hectares/4,000 m^2	Area of a rectangle = length x width
1 tree = 0.01 hectares/100 m^2	Area of a triangle = ½ length x perpendicular height

Total area of clearing proposed (hectares)	2,444.6 ha of clearing of native vegetation: • Clearing of 2,146.7 ha of native vegetation (undisturbed) • Clearing of 297.8 ha of rehabilitated land (vegetation condition degraded - good)
Footprint of clearing (hectares) (purpose permit only)	8,989.1ha

Number of individual trees to be cleared	N/A

Note: Calculate the area of a tree based on the area encompassed by the tree's drip line; that being the outermost circumference of the tree's canopy.

5.3 Purpose

Provide the reason for proposed clearing (e.g. road construction, grazing and pasture, hazard reduction, horticulture, timber harvesting etc.). If applicable, provide any additional project overview or explain in detail the activities on the property (e.g. provide context of work proposed and describe how clearing will contribute to overall work activities onsite etc.).	Clearing of native vegetation is required to facilitate the recommencement and development of the Bullabulling Gold Project, a gold mining operation located 25km south-west of Coolgardie in the Goldfields region of Western Australia, including construction of open pits, waste rock dumps, processing plant, tailings storage facility, non-process infrastructure, site roads and drainage.
Specify what the final land use will be after clearing	Post-mining land use will be a combination of native vegetation rehabilitation consistent with surrounding vegetation communities and pastoral grazing, as agreed with relevant stakeholders. Final rehabilitation will be conducted in accordance with the approved Mining Development and Closure Proposal (MDCP) and Mine Closure Plan.

5.4 Method

Proposed method of clearing (i.e. burning, cutting, draining, flooding, grazing, mechanical clearing/bulldozing or other – specify)	Mechanical clearing/bulldozing.

5.5 Timeframe

Period within which you propose to do the clearing (e.g. 1/7/2022 to 30/8/2024)	Start date: 15/12/2026 End date: 1/01/2030

Note: The clearing referral process is not suitable for any clearing that is expected to take longer than two years.

5.6 Pre-application scoping

Historic clearing of native vegetation in the Swan Coastal Plain and Avon Wheatbelt Interim Biogeographic Regionalisation for Australia (IBRA) bioregions has been extensive. DWER/DMPE strongly recommends a pre-application meeting if you propose to clear native vegetation within these bioregions.

Do you propose to clear native vegetation within the Swan Coastal Plain or Avon	☐ Yes – complete section below ☐ I have had a pre-application meeting with DWER/DMPE

Wheatbelt bioregions?	<table><tr><td>Insert date of meeting and officer name(s):</td><td></td></tr></table> ☐ I have contacted DWER/DMPE in relation to a pre-application meeting and been advised that a meeting is unnecessary in this case. <table><tr><td>Insert date of conversation and officer name(s):</td><td></td></tr></table> ☐ I have not had a pre-application meeting with DWER/DMPE. I understand that this may increase the likelihood of requests for further information and/or delays in assessment. ☒ No – proceed to next question.

Part 6 – Mitigation hierarchy

6.1 Avoidance and mitigation

Explain how you have, or will, put avoidance and mitigation measures in place to eliminate, reduce, or otherwise mitigate the need for and scale of the proposed clearing of native vegetation.

Attach supporting documents to substantiate your explanation.

Your explanation should demonstrate you have planned the project so that the least clearing possible is to be undertaken. The following questions may help you frame your explanation:

- Why did you select this location and amount of clearing?
- What alternatives to clearing – e.g. engineering solutions – did you consider? (Attach design drawings where applicable)
- What changes, if any, did you make to the location or amount of clearing to reduce the impacts of the clearing?

Note: If you do not demonstrate adequate efforts to avoid and mitigate clearing, DWER/DMPE will ask you to do so during the validation of this application. Offsets will only be considered by DWER/DMPE as a last resort, once avoidance and minimisation measures have been clearly demonstrated.

Provide the avoidance details (e.g. retention of vegetation on property)	Infrastructure has been designed to utilise existing disturbed areas and avoid priority flora species as far as practicable. Some priority species may be disturbed in the development of this proposal. The proposed footprint has been designed to limit the need for temporary infrastructure, for example construction laydowns have been positioned in Life of Mine landform locations to maximise use.

Provide the mitigation details (e.g. management of weed spread, rehabilitation)	- Hygiene inspections of vehicles prior to entering the project area, seasonal weed inspection and ongoing management during operations will be undertaken to prevent the spread of weeds. - Clearing will be undertaken progressively and staged to align with the construction and operational schedule. - Topsoil will be stripped to an average depth of 200mm and stockpiled based on soil landscape characteristics. - Pre-clearance fauna surveys will be conducted prior to clearing to identify significant fauna. - Topsoil and vegetation will be stripped and retained for future rehabilitation uses. - Cleared areas will be rehabilitated in accordance with the approved MDCP and Mine Closure Plan.

6.2 Offsets

Do you want to submit a clearing offset proposal with your form?	☐ Yes ☒ No
If 'Yes' – please complete and attach Appendix A of the *Clearing of native vegetation offsets procedure* guideline as a supporting document for your form.	☐ Appendix A attached

Part 7 – Surveys for assessments (ISA)

Do you want to submit marine or biodiversity surveys in support of your form?	☒ Yes ☐ No – skip to Part 8

7.1 Biodiversity and Marine surveys

If you want to submit any biodiversity or marine surveys to support this form, you must submit them via Environment Online and follow the **Procedure - – Preparing Data Packages for the Index of Surveys for Assessments (ISA)** at https://environmentonline.dwer.wa.gov.au/article/?code=KA-00081#/ and https://environmentonline.dwer.wa.gov.au/article/?code=KA-00098.

If you do not meet the ISA requirements, DWER/DMPE will decline/return your form.

Please provide the ISA number(s) in the space provided. Please note DWER/DMPE will suspend the assessment timeframes for your application until the biodiversity or marine surveys are accepted by ISA.

Have you submitted all the biodiversity surveys that support this form to the Index of Surveys for Assessment via Environment Online?	☒ Yes ☐ Not applicable
If 'Yes' – please provide the ISA number(s)and/or any relevant existing IBSA/IMSA numbers	ISA-0001802 ISA-0001803
