| Land Details | |
|---|---|
| Property name | Capella Pass to Port Kennedy boat launching facility - Shared Path renewal |
| Land description | Reserve ID - R45566<br>Lot Number - 3006<br>Reserve ID - R44886 & R44005 |
| Street address – Line 1 | |
| Street address – Line 2 | |
| Suburb | |
| Postcode | |
| Local government area | City of Rockingham |
| State | |
| Land Zoning | Public Open Space |
| Relationship to landowner | I am the landowner |

| Proposed Clearing | |
|---|---|
| Total area of clearing proposed (hectares) | |
| Footprint of clearing (hectares) | ~~0.292~~ 0.40 |
| Number of trees to be removed | 0 |
| Purpose for clearing | |
| Specify other | Shared path renewal and widening |
| Final land use after clearing | Shared Path |
| Method for proposed clearing | |
| Specify other | |
| Proposed start date | |
| Proposed end date | |
| Avoidance details | Avoidance and mitigation measures have been incorporated into both the design and construction methodology to minimise vegetation clearing. Where practicable, the proposed upgrades will involve overlaying new asphalt onto the existing path to reduce construction disturbance. The clearing extent and pruning are clearly illustrated within the document named “07825-CL”. Vegetation clearing within the design footprint (Orange dashed line) will generally be limited to understorey vegetation, with no removal of mature trees proposed. Where additionally required, selective pruning of existing trees (Blue honeycomb hatch) will be undertaken to facilitate the widened shared path and maintain |

| | |
|---|---|
| | adequate clearance for the safe passage of pedestrians and cyclists.<br>In addition, along the section of shared path adjacent to the coastal dune rehabilitation and re-vegetation area near the Port Kennedy Boat Ramp, clearing within rehabilitated areas will be avoided. Works will be confined to the area up to the existing fence line wherever possible, thereby avoiding impacts to re-vegetated vegetation. Any additional widening required will be accommodated on the opposite side of the existing path. Collectively, these measures will minimise vegetation loss, reduce impacts on native vegetation, and protect sensitive coastal rehabilitation areas. |
| Mitigation details | NIL |
| Offset proposal submitted? | False |

| **Pre-application scoping** | |
|---|---|
| Clearing within the Swan Coastal Plain and Avon Wheatbelt bioregions? | True |
| Any pre-application scoping meetings with DWER? | |
| Details of pre-application scoping meetings | |

| **Assessment Bilateral Agreement** | |
|---|---|
| Request the proposed clearing action to be assessed in accordance with, or under, an EPBC Act Accredited Process? | False |
| Is the proposed clearing a controlled action? | True |
| EPBC number | |
| Details of controlled action | |
