GOVERNMENT OF WESTERN AUSTRALIA

Departments of
Water and Environmental Regulation
Mines, Petroleum and Exploration

Application for new permit or referral to clear native vegetation

This is the form to submit a referral of proposed clearing or apply for a clearing permit under Part V of the *Environmental Protection Act 1986* (EP Act).

Before you submit this form, please check you have completed all the fields for the form type and fully prepared any required supporting documents (maps etc.). The Department of Water and Environmental Regulation (DWER) or Department of Mines, Petroleum and Exploration (DMPE) will return/decline any forms that are not correctly completed.

To find out more about the stages of assessment for clearing permit forms, see the *Procedure: Native vegetation clearing permits*.

Part 1 – Form type

Select your form type. **Note**: Where appropriate in this form, and unless stated otherwise, the terms 'application' and 'applicant' also mean 'referral' and 'referrer' respectively.	☐ Referral of proposed clearing (section 51DA of the EP Act) ☐ Application for an area permit (section 51E of the EP Act) ☒ Application for a purpose permit (section 51E of the EP Act)

Which department are you submitting this form to? If the clearing is for mineral and petroleum activities authorised under the *Mining Act 1978*, the various petroleum Acts, and/or a State Agreement with areas covered by either mineral or petroleum tenure granted under one of the abovementioned Acts, select 'Department of Mines, Petroleum and Exploration'. For all other clearing activities, select 'Department of Water and Environmental Regulation'.	☐ Department of Mines, Petroleum and Exploration ☒ Department of Water and Environmental Regulation

Part 2 – Applicant details

2.1 Applicant name

For area permits:

If granted, the name(s) of (all) landowner(s) will be listed as 'permit holders' on the permit.

For purpose permits:

If granted, the name(s) of (all) applicant(s) will go on the permit.

☐ Applying as an individual – complete the following:

Title	☐ Mr ☐ Mrs ☐ Ms ☐ Other:	
Name(s)		

☐ Applying as a body corporate or other entity formed at law – complete the following:

Name	
Australian Company Number (ACN)	

☒ Applying as a government entity (e.g. government department, local government authority, or other statutory body)

Name	Rottnest Island Authority

2.2 Applicant contact details

Provide the contact details for the above (primary contact).

Title	[redacted]
First name	
Last name	
Position	
Company name	
Phone number	
Email address	

2.3 Applicant contact postal details

Provide the postal address for the above individual, body corporate or local government authority (primary contact).

Address line 1	[redacted]
Suburb	
State	

2.4 Applicant contact – registered business address

If applying as a company, incorporated body, local government authority or public authority, please also supply the registered business office address.

Address line 1	[redacted]
Suburb	
State	
Phone number	

2.5 Electronic correspondence consent

DWER/DMPE prefer to send all correspondence via email. We request that you consent to receiving all correspondence relating to instruments and notices under Part V of the EP Act via email. Please indicate your consent in this section of the form.

I consent that all written correspondence between myself (the applicant) and DWER/DMPE (as applicable) about the subject of this form will be exclusively via email, using the email address provided above.	☒ Yes ☐ No

2.6 Contact details for enquiries

If different from the applicant's contact details, enter the contact details of a person with whom DWER/DMPE should liaise with (e.g. a consultant).

Same as applicant's contact details	☐ Yes ☒ No

If 'No' – complete the following:

Title	[redacted]
Contact name	
Position (if applicable)	
Company name (if applicable)	
Phone number	
Email address	
Business or postal address line 1	

Business or postal address line 2	[redacted]
Suburb	
State	

Part 3 – Land details

- You must accurately describe the location of the land where your clearing is proposed.
- Provide copies of associated documents registered against the Certificate of Title (limitations, interests, encumbrances or notifications) where the clearing may impact them (i.e. caveats within freehold Lots).
- If you have a large number of properties, please provide the relevant details for each property in a separately attached supporting document.

I have a large number of properties and have given the relevant details in an attached supporting document.	☐ Yes – skip to Part 4 ☒ No

If 'No' – complete the following:

Land description Provide the following details, as applicable, for all properties: – volume and folio number – lot or location number(s) – crown lease or reserve number – pastoral lease number – mining tenement number	Lot 10976 on Deposited Plan 216860		
Street address – Line 1	Golf Course, Hole 7		
Street address – Line 2			
Suburb	Rottnest Island		
State	WA	Postcode	6160
Local government area(s)	City of Cockburn		
Land zoning	N/A		

Part 4 – Relationship to landowner

Tell us which of the following options best describes you as the person completing and submitting this form. If you are filling out this form on behalf of the applicant, answer this question as though you are the applicant.

Proof of ownership may include:

- a certificate of title
- a pastoral or mining lease
- public authority that has care, control or management of the land
- other form of lease, land tenure or specific arrangement.

Relationship to landowner **(select one of the following options)**	**Complete the following**
☒ I am the landowner	☒ Attach proof of ownership
☐ I am lodging a form on behalf of the landowner (e.g. a consultant)	☐ Attach proof of ownership
☐ I am acting on the landowner's behalf and will be jointly responsible for the clearing permit (i.e. joint form)	☐ Attach proof of ownership ☐ Attach a letter, in which the landowner authorises you to act on their behalf and acknowledge they will be jointly responsible for the clearing permit
☐ I am likely to become the landowner	☐ Attach evidence of the pending transfer of ownership, including details of current proprietor on certificate of title, and/or contract of sale ('offer and acceptance')
☐ I will undertake the clearing activities with the landowner's authority and will be the permit holder	☐ Attach proof of ownership ☐ Attach a letter, in which the landowner authorises you to access and clear native vegetation within the property(ies) as detailed in section 3.1 (if the applicant is not the landowner)
☐ I am a person with multiple land parcels within which clearing is proposed	☐ Attach proof of ownership and/or ☐ Attach letters, in which the landowner authorises you to access and clear native vegetation within the properties as detailed in section 3.1 (if the applicant is not the landowner)
☐ I will undertake the clearing activities through the exercise of power conferred by different legislation (e.g. the *Energy Operators (Powers) Act 1979*)	☐ Provide relevant legislative details:

Part 5 – Proposed clearing

5.1 Maps and/or spatial data

Select which map type(s) you will attach with your form. Note: DWER/DMPE will decline/return forms (as applicable) if you do not provide sufficient information for this question.	☒ An ESRI shapefile with the following properties (preferred) • Geometry type: polygon shape • Coordinate system: Geocentric Datum of Australia (GDA) 2020 (geographic latitude/longitude) • Datum: GDA 2020 ☐ An aerial photograph or map with a north arrow, clearly marking the proposed clearing area Note: • An ESRI shapefile must use one of the following filename extensions: .shp, .shx, .dbf, and/or .prj • You must provide an ESRI shapefile if the form requires an assessment under an *Environment Protection and Biodiversity Conservation Act 1999* (Cth) (EPBC Act) accredited process. See Part 8 of this form for more information.

5.2 Size

- If you propose to clear a patch(es) of vegetation, enter a hectare value for the total size of the area (mark number of trees as zero). For example, "clearing of 5 hectares".
- If you propose to clear only individual trees (i.e. the shrubs, grasses, groundcover plants will remain intact), provide the number of trees. For example, "clearing of 10 trees". If any shrubs, grasses, and/or groundcover plants **may** be damaged in the clearing process, enter the total area only.
- If you propose to clear an area of native vegetation within a larger footprint, enter the hectare value for the total size of the area to be cleared (mark number of trees as zero) and the size of the footprint. For example, 5 hectares of clearing within a 10-hectare footprint. This option is only available for purpose permit applications.
- Enter values for **both** number of trees and the size of the area **only if** you are clearing individual trees in one area **and** a patch of vegetation in a different area.
- Please note the following area conversions/calculations:

1 hectare = 10,000 m^2	Area of circle = 3.14 x $radius^2$
1 acre = 0.4 hectares/4,000 m^2	Area of a rectangle = length x width
1 tree = 0.01 hectares/100 m^2	Area of a triangle = ½ length x perpendicular height

Total area of clearing proposed (hectares)	**0.010294**
Footprint of clearing (hectares) (purpose permit only)	**N/A**
Number of individual trees to be cleared	**N/A**

Note: Calculate the area of a tree based on the area encompassed by the tree's drip line; that being the outermost circumference of the tree's canopy.

5.3 Purpose

Provide the reason for proposed clearing (e.g. road construction, grazing and pasture, hazard reduction, horticulture, timber harvesting etc.). If applicable, provide any additional project overview or explain in detail the activities on the property (e.g. provide context of work proposed and describe how clearing will contribute to overall work activities onsite etc.).	The Rottnest Island Golf Course is currently undergoing remodelling following the removal of Hole 9 to facilitate changes to the spatial extent and memorialisation works at the Wadjemup Aboriginal Burial Ground. As part of the revised course layout, several golf holes are being relocated. To support these changes and ensure golfers can safely move between holes without encountering oncoming traffic, a dedicated pathway is required to provide access between the green of Hole 6 and the tee of Hole 7.
Specify what the final land use will be after clearing	Functional sealed path with no changes to the surrounding land use (remains a Golf Course).

5.4 Method

Proposed method of clearing (i.e. burning, cutting, draining, flooding, grazing, mechanical clearing/bulldozing or other – specify)	Mechanical clearing

5.5 Timeframe

Period within which you propose to do the clearing (e.g. 1/7/2022 to 30/8/2024)	Works are expected to take a maximum of one week. Works will commence once approval is received.

Note: The clearing referral process is not suitable for any clearing that is expected to take longer than two years.

5.6 Pre-application scoping

Historic clearing of native vegetation in the Swan Coastal Plain and Avon Wheatbelt Interim Biogeographic Regionalisation for Australia (IBRA) bioregions has been extensive. DWER/DMPE strongly recommends a pre-application meeting if you propose to clear native vegetation within these bioregions.

Do you propose to clear native vegetation within the Swan Coastal Plain or Avon Wheatbelt bioregions?	x Yes – complete section below ☐ I have had a pre-application meeting with DWER/DMPE Insert date of meeting and officer name(s): ☐ I have contacted DWER/DMPE in relation to a pre-application meeting and been advised that a meeting is unnecessary in this case.

	Insert date of conversation and officer name(s):	

x I have not had a pre-application meeting with DWER/DMPE. I understand that this may increase the likelihood of requests for further information and/or delays in assessment.

☐ No – proceed to next question.

Part 6 – Mitigation hierarchy

6.1 Avoidance and mitigation

Explain how you have, or will, put avoidance and mitigation measures in place to eliminate, reduce, or otherwise mitigate the need for and scale of the proposed clearing of native vegetation.

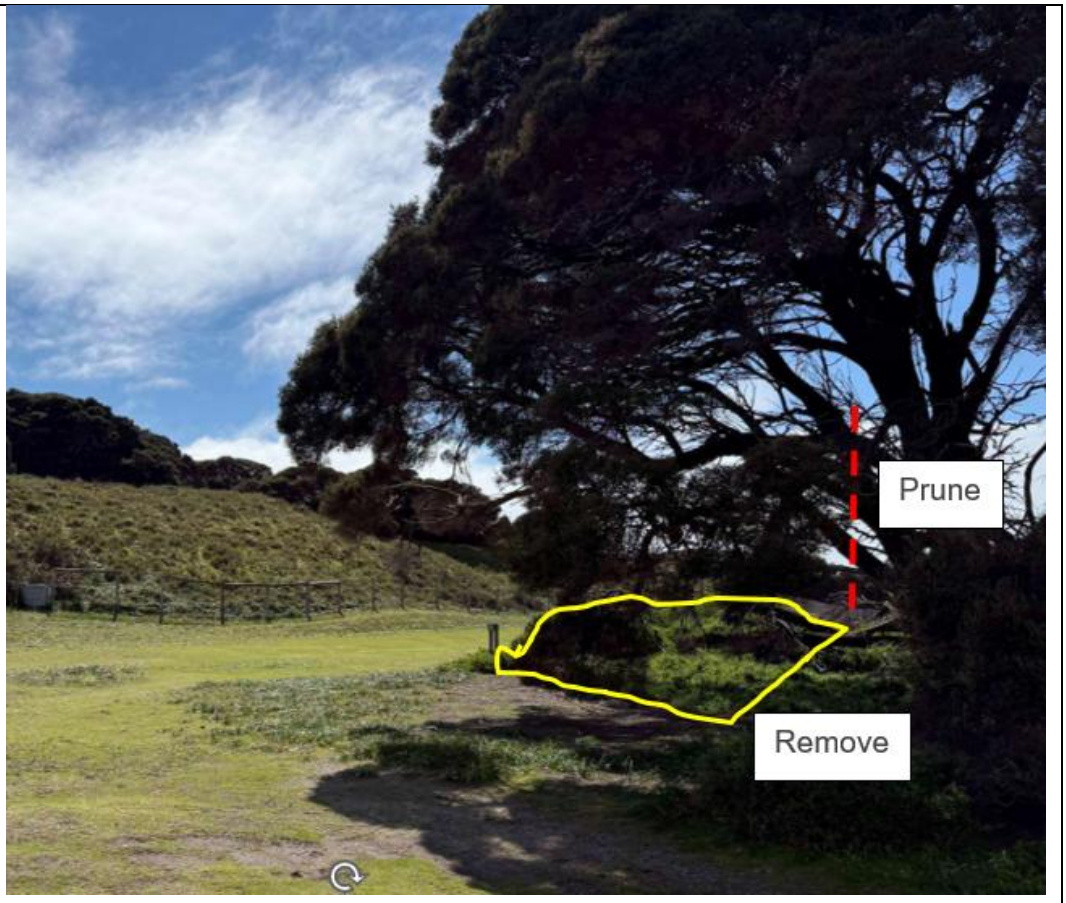

Attach supporting documents to substantiate your explanation.

Your explanation should demonstrate you have planned the project so that the least clearing possible is to be undertaken. The following questions may help you frame your explanation:

- Why did you select this location and amount of clearing?
- What alternatives to clearing – e.g. engineering solutions – did you consider? (Attach design drawings where applicable)
- What changes, if any, did you make to the location or amount of clearing to reduce the impacts of the clearing?

Note: If you do not demonstrate adequate efforts to avoid and mitigate clearing, DWER/DMPE will ask you to do so during the validation of this application. Offsets will only be considered by DWER/DMPE as a last resort, once avoidance and minimisation measures have been clearly demonstrated.

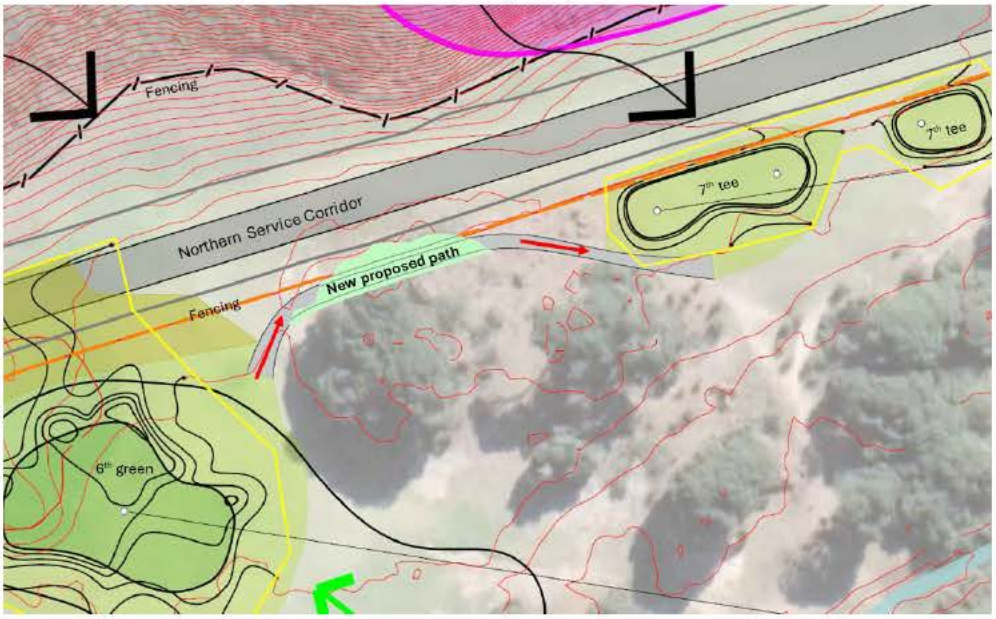

Provide the avoidance details (e.g. retention of vegetation on property)	The Northern Services Corridor (NSC) is being constructed along the fairway of Hole 7 to provide an infrastructure and transport linkage between Mt Herschell and the Bathurst area. The NSC includes a road, underground services, an external fence and setback that will occupy the majority of the Hole 7 fairway to the north of the clearing area in question (see Figure 1 below). Taking into account the location of these elements, the fence alignment will be positioned immediately north of the TEC vegetation in question. As a result, the path from the 6th green to the 7th tee must be located on the southern side of the fence and will unavoidably pass through the TEC vegetation. No trees will be removed, only limbs pruned and shrubs removed (*Rhagodia spp*), see photos below.

The alternative route to avoid the TEC vegetation is to align the path from the 6th green back to the east towards the 6th tee and then to the north-east toward the 7th tee, however, this would create a safety risk due to potential interactions with active play areas.

The chosen path alignment that intersects the small area of TEC vegetation is necessary to maintain golfer safety and also facilitate the logical flow of course

	traffic. In conclusion, there is no viable alternative route south of the TEC vegetation.  **Figure 1.** Map showing the location of the proposed golfer path in relation to the Northern Services Corridor, TEC vegetation, 6th green and 7th tee.
Provide the mitigation details (e.g. management of weed spread, rehabilitation)	The proposed clearing footprint has been minimised to the smallest area practicable to facilitate construction of the path while avoiding impacts to surrounding vegetation. • GPS technology and flagging tape will be used to accurately define and clearly delineate the approved clearing boundary prior to works commencing, ensuring no vegetation outside the approved disturbance area is impacted. • Construction personnel will be briefed on environmental constraints and positioned to avoid trampling or disturbance to adjacent vegetation outside the approved clearing area. • A qualified fauna spotter will be present during all vegetation clearing activities to identify and safely manage any fauna within or adjacent to the disturbance area. • All vehicles, machinery and equipment brought to the island will be accompanied by weed and seed certification to minimise biosecurity risks. • Footwear and hand tools used during the works will be cleaned and inspected prior to arrival on the island to prevent the introduction or spread of weed species and pathogens.

6.2 Offsets

Do you want to submit a clearing offset proposal with your form?	☐ Yes ☒ No
If 'Yes' – please complete and attach Appendix A of the *Clearing of native vegetation offsets procedure* guideline as a supporting document for your form.	☐ Appendix A attached

Part 7 – Surveys for assessments (ISA)

Do you want to submit marine or biodiversity surveys in support of your form?	☐ Yes ☒ No – skip to Part 8

7.1 Biodiversity and Marine surveys

If you want to submit any biodiversity or marine surveys to support this form, you must submit them via Environment Online and follow the **Procedure - – Preparing Data Packages for the Index of Surveys for Assessments (ISA)** at https://environmentonline.dwer.wa.gov.au/article/?code=KA-00081#/ and https://environmentonline.dwer.wa.gov.au/article/?code=KA-00098.

If you do not meet the ISA requirements, DWER/DMPE will decline/return your form.

Please provide the ISA number(s) in the space provided. Please note DWER/DMPE will suspend the assessment timeframes for your application until the biodiversity or marine surveys are accepted by ISA.

Have you submitted all the biodiversity surveys that support this form to the Index of Surveys for Assessment via Environment Online?	☐ Yes ☐ Not applicable
If 'Yes' – please provide the ISA number(s)and/or any relevant existing IBSA/IMSA numbers	

Part 8 – Assessment bilateral agreement

The native vegetation clearing processes under Part V of the EP Act have been accredited by the Commonwealth of Australia under the EPBC Act and so can be assessed under an assessment bilateral agreement.

To be assessed this way, the proposed clearing action must have been referred to the Commonwealth under the EPBC Act and deemed a '**controlled action**' before you submit this form. DWER/DMPE will decline to deal with your application without the proposed clearing first being deemed a controlled action.

For further information, see DWER's guidance on the assessment bilateral agreement.

Do you want your proposed clearing action assessed in accordance with, or under, an EPBC Act Accredited Process, such as the assessment bilateral agreement or accredited assessment?	☐ Yes ☒ No – skip to Part 9
Is your proposed clearing a controlled action? If 'Yes', please make sure you have entered all the mandatory details in the	☐ Yes EPBC number:

Annex C7 form	☐ Annex C7 form attached ☒ No (DWER/DMPE cannot assess the application under an EPBC Act Accredited Process)
List the controlling provisions identified in the notification of the controlled action decision	

Part 9 – Other approvals

9.1 Environmental impact assessment (Part IV of the EP Act)

Clearing may be referred to the EPA if it is considered to be part of a 'significant proposal', as defined by section 37B(1) of the EP Act, or will likely to be part of a larger development. An example is when the clearing is for a road to a future mine.

Section 37B(1) of the EP Act defines a 'significant proposal' as "a proposal likely, if implemented, to have a significant effect on the environment". If a decision-making authority (e.g. DWER/DMPE) considers the proposal in this form is likely to constitute a 'significant proposal', under section 38(5) of the EP Act they must refer the proposal to the EPA under Part IV, if such a referral has not already been made.

Has the proposed clearing or any related matter been referred to the EPA?	☐ Yes Enter details: [ ] ☒ No – complete question below.
If 'No' – do you intend to refer the proposal to the EPA?	☐ Yes – intend to refer (proposal is a 'significant proposal') ☐ Yes – intend to refer (proposal will require a section 45C amendment to the current Ministerial Statement) ☐ No – a current valid Ministerial Statement applies Enter Ministerial Statement number: [ ] ☒ No – not a significant proposal

9.2 Other approvals – works approval, licence or registration (Part V Division 3 of the EP Act)

Have you applied or do you intend to apply for a works approval, licence, registration or an amendment to any of the above, under Part V Division 3 of the EP Act? It is an offence to perform any action that would cause a premises to become a prescribed premises of a type listed in Schedule 1 of the Environmental Protection Regulations 1987,	☐ Yes Application reference: [ ] ☐ No – a valid works approval applies

unless that action is done in accordance with a works approval, licence or registration. For further guidance, see DWER's *Procedure: Prescribed premises works approvals and licences* and *Guideline: Industry regulation guide to licensing*.	☐ No – a valid licence applies ☐ No – a valid registration applies ☒ No – not required

9.3 Water licences and permits (*Rights in Water and Irrigation Act 1914*)

Have you applied or do you intend to apply for: • a licence or amendment to a licence to take water (surface water or groundwater) • a licence or amendment to a licence to construct wells (including bores and soaks), or • a permit or amendment to a permit to interfere with the bed and banks of a watercourse? For further guidance on water licences and permits under the *Rights in Water and Irrigation Act 1914*, see DWER's *Procedure: Water licences and permits*.	☐ Yes ☐ No – a current valid licence applies Licence number: ☒ Not applicable

9.4 Planning and other approvals

Has the proposal obtained all relevant planning approvals and/or have you applied for all relevant planning approvals (e.g. Development Approval, Extractive Industry Licence, etc.)?	☐ Yes Enter details: ☐ No – planning approval is not required Enter details: ☒ Not applicable

Part 10 – Prescribed fee

10.1 Referral or application?

There are no prescribed fees for referrals. Is this form a referral of proposed clearing or an application for a new permit?	☐ Referral – skip to Part 11 ☒ Application – continue and complete Part 10

10.2 Calculating the application fees

You must pay the prescribed fee at the time you submit the application form. DWER/DMPE will decline to deal with your application if you do not pay the prescribed fee.

Please calculate the prescribed fee using the online clearing permit fee calculator tool.

For further guidance, see DWER's online clearing fees frequently asked questions.
