## Referral details

| | |
|---|---|
| Referral number: | REF 11316/1 |
| Referral submitted by: | Ms Megan Blake & Mr Jason Lyneham |
| Purpose of proposed clearing: | Installation of new power connection |
| Location of proposed clearing: | Lot 14288 on Deposited Plan 151320 |
| Locality: | Popanyinning |
| Clearing size: | 0.1 hectares |

## Referral determination:

The Department of Water and Environmental Regulation has considered the above referral and determined under section 51DA(3) of the *Environmental Protection Act 1986* (the EP Act) that a clearing permit **is required** for the proposed clearing of the areas cross-hatched orange on the attached map detailed in Schedule 1 (the referral area).

The reason for this determination is that the proposed clearing does not satisfy all of the criteria specified in s.51DA(4) of the EP Act. Specifically:

- there are known or likely significant environmental values identified within the referral area
- there are issues that would arise as a result of the proposed clearing that are likely to require conditions to manage or mitigate effects on the environment.
