Government of Western Australia
Department of Water and Environmental Regulation

CLEARING REFERRAL DETERMINATION NOTICE

Referral details

Referral number:	REF 11656/1
Referral submitted by:	William Piercey
Purpose of proposed clearing:	Hazard reduction
Location of proposed clearing:	Lot 102 on Diagram 70455
Locality:	Little Grove (Albany)
Clearing size:	30 native trees

Referral determination

The Department of Water and Environmental Regulation has considered the above referral and determined under section 51DA(3) of the *Environmental Protection Act 1986* (the EP Act) that a clearing permit **is required** for the proposed clearing of the area cross-hatched orange on the attached map detailed in Schedule 1 (the referral area).

The reason for this determination is that the proposed clearing does not satisfy all of the criteria specified in s.51DA(4) of the EP Act. Specifically:

- there are known or likely significant environmental values identified within the referral area; and
- the state of scientific knowledge about vegetation within the region in which the referral area is situated is not adequate.

Ray Carvalho
