Government of **Western Australia**
Department of **Water and Environmental Regulation**

CLEARING REFERRAL DETERMINATION NOTICE

Referral details

Referral number:	REF 11705/1
Referral submitted by:	Shire of Kojonup
Purpose of proposed clearing:	Construction of round yard for horse training
Location of proposed clearing:	Lot 37 on Deposited Plan 45842
Locality:	Kojonup
Clearing size:	0.426 hectares

Referral determination:

The Department of Water and Environmental Regulation has considered the above referral and determined under section 51DA(3) of the *Environmental Protection Act 1986* (the EP Act) that a clearing permit **is required** for the proposed clearing of the area cross-hatched orange on the attached map detailed in Schedule 1 (the referral area).

The reason for this determination is that the proposed clearing does not satisfy all of the criteria specified in s.51DA(4) of the EP Act. Specifically:

- there are known or likely significant environmental values identified within the referral area
- the state of scientific knowledge about vegetation within the region in which the referral area is situated is not adequate; and
- there are issues that would arise as a result of the proposed clearing that are likely to require conditions to manage or mitigate effects on the environment.
